## Custom Artwork Commissions by Jordan Scott

**Custom Artwork Commissions** for your home or business.

Are you thinking about a new piece of artwork for your home or business? Elevate your living or working space with my award-winning contemporary abstract artwork. Custom commissions for private homes, offices and businesses. Starting at just \$1,250 for a 16" x 16" piece. Please see the sizing guide below. Additional custom sizes are also available.

**How does it work?** The first step is to contact me to discuss the type of commission you are interested in. Some things for you to consider: Are there existing artworks or images by me that you like and want to base the commission on? What size works best for your space? What color palettes interest you? Do you like an existing design but want to change the color scheme, or the other way around? Do you have an existing collection of postage stamps that you want incorporated into the custom piece? Once we decide on a design, color scheme and size, pricing and turnaround time can easily be determined.
